

Client: Bonne Vie Nail & Spa

Case: My friend's mom runs her own nail salon. The only online presence for this small local business is their yelp page, and a facebook page which was last updated in 2013.

Requests: The owner requested something natural and green. After a few drafts, we settled for a neutral, beige tone instead. She also wanted to advertise their new services.

Issues: Google Maps API isn't free anymore. If Bonne Vie wishes to use this website I would add it in for them, but for now I've decided to opt it out for this project.

Notes: The images on the site are acting as placeholders.
